Office Action Summary	Application No. 10/722,805	Applicant(s) GREBONVAL ET AL.	
	Examiner John Q. Nguyen	Art Unit 3654	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 3654

Applicant's election without traverse of the species of figs. 1-4, claims 1, 2, and 5-27 in the reply filed on 6/30/05 is acknowledged.

Claims 3, 4, and 28-62 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/30/05. It should be noted that claim 36 does not read on the elected species.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 5-9, 12-17, 19, 22-26 are rejected under 35 U.S.C. 102(e) as being anticipated by FitzSimons et al (US-6899250).

Fitzsimons et al discloses a wet and dry towel dispenser (especially figs. 4-8) having substantially all the claimed features including base 12 including a shroud, a support member including element/spindle 30 or 42 which is attached to all elements of the base. Openings 24 and 34 expose a portion of the roll. The angle is about 0 degrees (claim 12) and about 90 degrees (claim 13). The gap of claim 15 reads on openings 24 or 34. Note dispensing cover 28 and sealing ring surrounding dispensing

opening 26. Relative to claim 19, note hinge 29. A portion of compartment 14 or 16 can also be a storage compartment. Relative to claim 23, note fig. 4 showing a refill cover 44.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10 and 11 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over FitzSimons et al (US-6899250).

Since the roll appears to be a standard roll, the spindle is deemed to have the claimed dimensions or, alternatively, the claimed dimensions would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as preference, design criteria, space optimization, and costs.

Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over FitzSimons et al (US-6899250).

Compressible seals such as o-rings and gaskets are old and well known in the art and Official notice of such is hereby taken. Therefore the use of such a compressible seal in the cover which would then inherently spring open the cover would have been obvious to a person having ordinary skill in the art to provide a more effective seal of the dispensing opening.

Claims 20, 21, and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over FitzSimons et al (US-6899250) in view of Bando et al (US-6206221). Bando et al discloses another similar apparatus in which a dispensing cover 23 springs open by activating a button 90. It would have been obvious to a person having ordinary skill in the art to provide the apparatus of FitzSimons et al with a cover and button as taught by Bando et al to facilitate opening the dispensing cover. A soft-pack wet wipe package 40 with a removable sheet 45 is used as the source of wet wipe. That the removable sheet is a label would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as ornamental preference and design criteria and also since such is also old and well known in the art and Official notice of such is hereby taken. It would have been obvious to a person having ordinary skill in the art to provide the wet wipe package of Fitzsimons as a soft-pack as taught by Bando et al to facilitate inserting the package into the dispenser.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Q. Nguyen whose telephone number is (571) 272-6952.
